

Still Life & Florals

EXPRESSIVE WATERCOLOR

TheArtStudio.us

Date | August 27-October 15, 2021

Eight Fridays | 11:00-1:00 pm

Instructor | Catherine Bobkoski

Tuition | \$360, *Ideal for beginners and up!*

Watercolor is fun, beautiful and portable!

In this eight week workshop, we will forget about the strict “rules” of watercolor painting and explore expressive mark-making with colorful subjects.

Students will begin by learning the fundamentals of watercolor technique: water control, glazing, lifting and other skills that will demystify the tricky aspects of the medium. Understanding these skills will allow you to avoid common “mistakes” in watercolor. In addition, students will be able to explore some unconventional techniques to create unusual effects. We will also discuss color and pigment choices and how these can add fascinating textural qualities to your paintings.

This class will feature frequent demonstrations and lots of one-on-one instruction. Students are encouraged to paint from direct observation – still life set-ups will be provided in-studio.

- Learn crucial watercolor skills to improve your painting
- Explore unusual techniques to add new dimension to your work
- Experiment with opaque, granulating, separating and staining colors
- Develop your observation and drawing skills by painting from life
- Paint with a loose, no-fuss approach!
