

# Drawing

## SUPPLY LIST

THE ART S

Start date | July 14, 2021, 6:30 pm

Instructor | Matteo DiVentra

In this course we will strengthen our abilities as draftsmen and women, the bread and butter of an artist! No building can stand without solid foundations and no figurative painting without solid understanding of the fundamentals of drawing. We will learn the age old tradition of drawing as the previous art masters had before us, and we will capitalize on the discoveries they had made. From construction and composition, to values and shadow shapes.
